

JOSHUA PAUL ORQUE DE GUZMAN

Backend & Fintech Software Developer

Zamboanga City, Philippines | +63 928 471 2602

joshuadg511@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Software Developer specializing in backend architecture and financial technology. Proven expertise in building scalable Node.js applications, double-entry accounting systems, and Web3 integrations. Adept at managing the full development lifecycle, from CI/CD pipeline automation to real-time communication system

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Java, C++, SQL.

Backend: Node.js, RESTful APIs, Socket.io, Workers, MongoDB/Mongoose.

Frontend: React.js, Next.js, Laravel, Vue.js.

DevOps & Tools: GitHub Actions (CI/CD), Postman/Bruno, Git.

Specialized: Double-entry Accounting, PayPal Integration, Blockchain/Web3, CMS.

Education

Ateneo de Zamboanga University

Bachelors of Science in Information Technology 2020-2024

Honors: Cum Laude

Leadership: Core Team Member, Google Developer Student Club (2020-2024)

WORK EXPERIENCE

Axcela PH | Junior Backend Developer

November 2024 – May 2026

- Engineered a robust Double-Entry Accounting System with complex financial logic, including automated interest calculations and loan release schemas.
- Developed and optimized RESTful APIs and background Workers using Node.js and TypeScript to handle high-concurrency tasks.
- Implemented real-time features using Socket.io for gaming backends and live application updates.
- Expanded application accessibility by configuring, optimizing, and building cross-platform distributions, including Electron executables for desktop and Android packages (APKs) for mobile.
- Integrated secure third-party services, including PayPal for payment processing and Web3/Blockchain modules.
- Managed database health through complex scripts, migrations, and proactive bug handling.

DICT - RX 9 | Full Stack Developer Intern

June 2023–July 2023

- Developed an Attendance Management System using **Laravel** and [Vue.js](#).

Key Projects

- FroFinX (Personal Project):** Designing a personal finance web application focusing on modern financial tracking and professional branding.
- RLE Management System (Nursing Education):** Served as Lead Developer for a Next.js-based system at Ateneo de Zamboanga University.
